

Nordea

**Location:
Stockholm**

Want to work with some of the largest derivative transactions in the Nordic region?

Corporate Solutions in Nordea Corporate & Investment Banking is recruiting for internship during fall 2018.

It's an exciting time for you to join us. We're a changing company with big ambitions and together we'll create the future of banking.

Working with us, you will play a part in building a better bank that fulfils a meaningful role in society. We aim to help our 11 million customers around the world improve their lives and reach their goals. To do that, meeting our customers' changing needs and offering them the best possible service is central to everything we do. Interested in coming on the journey with us?

The offer

As an intern, you'll assist the team in structuring hedging solutions for corporate clients.

In Corporate Solutions, a specialist unit within Nordea Corporate & Investment Banking, we add cross asset class derivative expertise in strategic hedging and financial transactions, mainly in FX and interest rates. Typically, we work on hedging transactions related to corporate debt refinancing, private equity M&A, and IPOs.

What you'll be doing:

- Maintain and develop models used by the team
- Participate in hedging projects within Debt Capital Markets and Advisory
- Work closely with our Sales units on pitching, pricing and execution of transactions

We offer one position during autumn 2018, the internship lasts for 20 weeks and is based in Stockholm. Welcome to a team that works on the largest derivative transactions in the Nordic region.

Nordea

Who are you?

To build a successful career with us, you'll work well with others and always act with the customer's needs in mind. You love learning and trying new things, and you're excited about bringing your ideas to the table. You're honest and dependable, willing to speak up even when it's difficult, and committed to empowering others. You're passionate about doing a great job.

Your background:

- Pursuing a quantitative university degree (e.g., Mathematics, Statistics, Finance, Physics or Computer science)
- Excellent knowledge about financial derivatives and Excel
- Interest in working both independently and as a part of a team
- Ability to deliver on fuzzy objectives, and tolerate mid-stream changes in projects
- Have a strong interest in the financial market

Collaboration. Ownership. Passion. Courage.

The four key values that guide us in being at our best and that we expect all our colleagues to be committed to.

If this sounds like you, we look forward to welcoming you to the team!

More information

Please apply online on www.nordea.com/career, including cover letter, CV and grade. Job-id: 209416. You have until 14th February 2018 to send us your application
